- ULTIMATE CLARITY**
Tempered safety glass, clear to see through and shatterproof.
- COLOR MATCHED**
Key color matched accent panels available.
- PROTECTION**
Inner and outer shells are made from high-quality, injection-molded plastics using a state-of-the-art process to shield from the elements and more.
- DURABLE CONSTRUCTION**
With a 1" tube steel frame, these doors can handle the rigors of the off-road.

A FRAME DESIGNED FOR A CAB

All RANGER cab components fit perfectly to the contours of the profile tube cab frame, floor and body panels, allowing for a 360° gasket seal, seamless fit and installation providing unprecedented protection from the elements.

INCREASED RIDER COMFORT

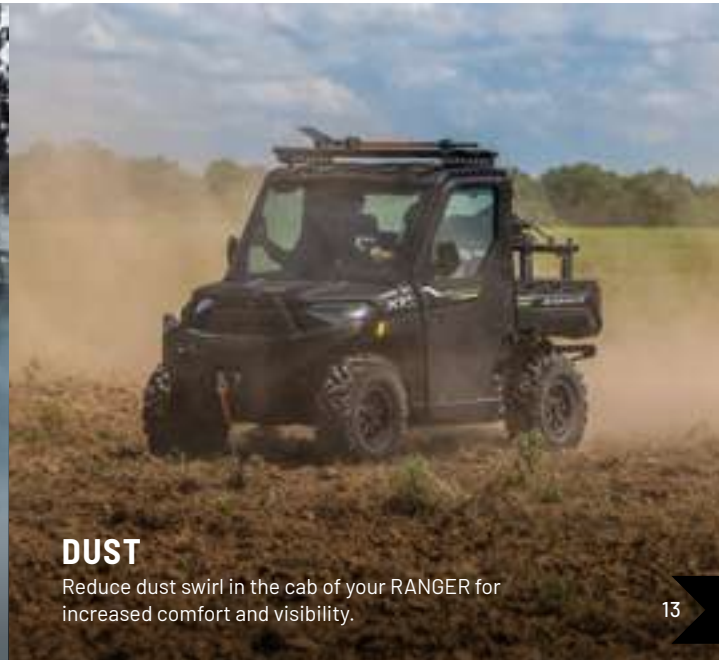

Add a new level of interior comfort by adding a Pro Shield Cab System – tested to military standards. Seal out dust, water, and noise by selecting a roof, windshield, rear panel, and set of doors. Extend your work day or trail ride while protecting you and your passengers from the elements.

RAIN
Rest assured that you and your passengers will stay dry and comfortable on rainy days.

SNOW
Keep cold wind and snow out in winter months.

DUST
Reduce dust swirl in the cab of your RANGER for increased comfort and visibility.

STORAGE SOLUTIONS FOR EVERY JOB

Equip your RANGER with Polaris Engineered storage accessories to pack all your essentials for every job. The versatile lineup includes all-new, easy-to-install patented Lock & Ride MAX accessories – like a Modular Cargo System (MCS), spare tire carrier and rear storage box – that offer limitless ways to customize your vehicle's storage capabilities.

Plus, we've partnered with Rhino-Rack® to deliver premium roof and bed rack solutions. Transform your vehicle for work, play or anything in between with these easy to use racks, load securing accessories and the latest in carrier technology. These racks deliver increased storage capacity, allowing you to elevate your pursuit and get more done in a day.

INTRODUCING

This vehicle features and all-new accessory system built around the need for next level durability and adaptability.

Our next generation of Polaris Lock & Ride technology brings with it an entirely new system of purpose-built accessories and attachments. This means you can configure your vehicle for any job, work more efficiently and get more done than ever before.

With virtually endless configurations and no tools required, you have the freedom to easily reconfigure on the fly and spend more time getting the job done.

HOW IT WORKS

1. Choose accessories

2. Position on the vehicle

3. Lock accessories into place

4. Reconfigure as needed

AUDIO

When you research audio solutions, you'll see manufacturers bragging about how their audio equipment is "Marine Grade". Or worse yet, you'll discover they are repackaged components built for automotive applications. MB Quart®, combined with Polaris, engineers Off-Road Grade Audio equipment that's proven to deliver the loudest, crispest sound in the harshest conditions. Rain, snow, mud, heat, cold, dust—**ANY PLACE YOUR RANGER EXCELS, SO WILL YOUR AUDIO.**

If using Glacier Pro Plow System with tracks, Track Plow Extension is required (2889267)

For year-round use, Polaris recommends the use of Intake Update Kit (2880673) on any RANGER XP 1000 '17, RANGER XP 1000 CREW '14-18 with tracks installed. To keep intake system working optimally, this kit pre-filters out fine snow and dust.

1 INDUSTRY-FIRST FLEX-TRACK DESIGN

Front-mounted tracks with flexible sides and a slight inward curve allow for stable handling, a more comfortable ride and precise steering over long-distances or extended working hours.

2 HIGH-DENSITY TIRE WITH ADJUSTED SHAPE

With puncture-proof tires that reduce friction and wear, the Prospecter Pro 2.0 Tracks delivers trouble-free performance.

Confidently take on bumps and obstacles with 8" high-density tracks.

3 LIGHTWEIGHT POWDER COAT STEEL FRAME

Proven geometry to improve durability and deliver capability in all conditions throughout the life of the tracks.

A lighter frame provides more flotation to stay on top of the snow and allows the tracks to easily shed the elements they encounter.

4 TANDEM STABILIZER

The bolt-on, tandem mid-roller wheel provides a smoother ride by absorbing shocks.

5 BEARING HOUSING

Outer seals and stainless steel sleeves allow stronger bearing durability and greater reliability.

6 WHEEL CAP & SEAL

A fitted wheel cap with bladder effect eliminates water absorption due to temperature variation. Ride in snow or mud without worrying about track maintenance.

HOLDS ICE
FOR AGES

BECAUSE JUST ANY COOLER
WON'T CUT IT OUT THERE.

You need something rugged and reliable. A cooler purpose built to handle the challenges of the off-road—while keeping your provisions on ice for days on end. Because out here, there are no ice machines, and you just left the last one in your dust. So, load it up. Lock it in. And know your NorthStar cooler is staying put—giving you a few extra days of ice time to enjoy the wild.

ALL POLARIS ENGINEERED WINCHES COME WITH:

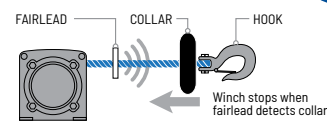

WARRANTY

- ✓ INTEGRATED WIRING, MOUNT, PREASSEMBLED
- ✓ HOOK WITH STRAP
- ✓ CUT STEEL GEARS & SEALED DRIVETRAIN
- ✓ SEALED PERMANENT MAGNET MOTOR

Retrieve cable 5x as fast as standard mode on other Polaris winches. Get back to riding or complete your task quicker.

1. Set winch dial to N (Neutral) to manually pull the rope out and secure the hook to your anchor point
2. Set winch dial to L (Low) for maximum pulling power while winching your load
3. Set winch dial to H (High) for retrieving the rope 5x faster with Rapid Rope Recovery

Auto Stop technology protects and extends the life of your winch by automatically stopping the winch at the end of pull to prevent over-spooling. While plowing, it prevents the plow frame from bending by stopping the winch once the plow has been lifted.

With its lightweight, yet extremely strong, design and superior flexibility, this 50 ft. long synthetic rope is easy to handle and can stand up to any tough job.

This convenient remote operates your Polaris winch wirelessly from within 50 ft. of the vehicle. Operate your winch safely outside your vehicle while on the job site or trails.

TIGHTER TREAD PATTERN
Better traction in hard pack

DUAL-DUROMETER LUG
Increased grip & traction in rough terrain, smoother ride in all terrain

10-PLY RATED
Increased durability

LARGER SIZE OFFERING IN 28"
More ground clearance & trail traction

DUAL-COMPOUND = MORE GRIP + LONGER LIFE

Firmer Durometer Rubber = Longer Life

Softer Durometer Rubber = More Grip

PRO ARMOR TREKKER

- Specialized tread design provides a quiet ride
- Graduated lug depth maximizes the contact patch for ultimate predictability
- 8-ply, triple belted nylon construction

POLARIS POWER

FOR THE LIFE OF YOUR RIDE

PUSH THE LIMITS WITHOUT SACRIFICING STRENGTH, LONGEVITY AND DURABILITY. Polaris parts are engineered specifically for your machine, to ensure you get the most out of each ride.

MAINTENANCE TIP

BREAK-IN PERIOD

The break-in period for your new RANGER is the first 25 hours of operation, or the time it takes to use the first two tanks of fuel. No single action on your part is as important as a proper break-in period. Careful treatment of a new engine will result in more efficient performance and longer life for the engine.

NOTICE: Excessive heat build-up during the first three hours of operation will damage close-fitted engine parts. Do not operate at full throttle or high speeds for extended periods during the first three hours of use.

SEE OUR LATEST MAINTENANCE TIPS AT RANGER.POLARIS.COM/EN-US/SELF-HELP

AIR FILTER

A clogged air filter can restrict air flow to the engine which can lead to reduced engine performance and shortened engine life.

BRAKE PADS

Brake pads should be checked for wear and oil or grease (petroleum products) contamination. Brake discs should be checked for cracks, excessive corrosion or warping.

HALF SHAFTS

Check for tears and punctures in the boot, which can lead to CV joint wear that can contribute to axle failure.

BATTERY

To ensure a battery maintains its level of charge when unused for extended periods of time or during freezing weather, the battery should be connected to a battery charger (see P. 119). Be sure to check for corrosion from the terminals to the ends of the cables.

DRIVE BELT

Polaris Engineered belts deliver unmatched performance for your off-road vehicle. Developed and tested on all our engines for all environments and conditions. Check your belt for delamination, hour glassing and glazing.

OUR INVESTMENT

- 40,000+ miles / 64,000+ km of field testing
- Thousands of dyno hours
- 18+ months of development (13,000+ design hours) per belt
- 1,500+ vehicle validation hours
- Collaboration with powertrain and clutch engineers

YOUR ADVANTAGE

- No clutch recalibration
- Less wear and tear due to heat
- Ensure maximum vehicle performance
- More time riding, less time wrenching
- Produced in collaboration with powertrain and clutch engineers to ensure a perfect fit, maximum performance and ultimate durability

BREAK-IN PERIOD

- Use lower gear (if available) while varying speeds and avoid wide open throttle for 5-10 miles / 8-16 km
- If no low gear is available, vary at moderate speeds while avoiding wide open throttle for 50 miles / 80 km

OIL FILTER

Change oil filters with every oil change to provide the best engine protection and keep the engine operating at peak performance.

- Expect the best in wear protection thanks to premium PAO and ester base stocks combined with a balance of moly and ZDDP additives
- Polaris exclusive clean engine additive system reduces deposits and carbon build-up for peak performance and power

THE BEST PROTECTION, MAXIMUM PERFORMANCE

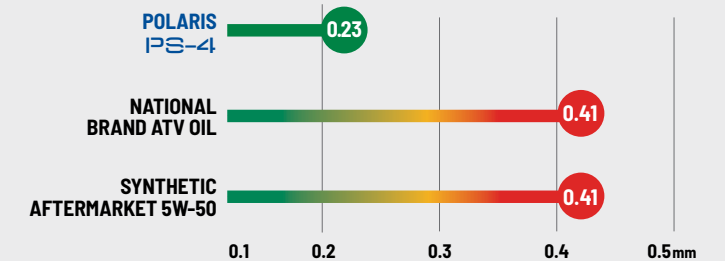

- Powersports grade full synthetics provide long lasting engine protection
- At least 40% improved wear protection compared to all aftermarket oils tested (see engine wear test chart)
- Polaris exclusive clean additive system
- At least 50% less deposits than all aftermarket oils tested (see deposit test chart)
- Cleaner engine with less deposits means consistent maximum power and performance

WIDEST VISCOSITY FOR ULTIMATE PROTECTION

ENGINE WEAR TEST

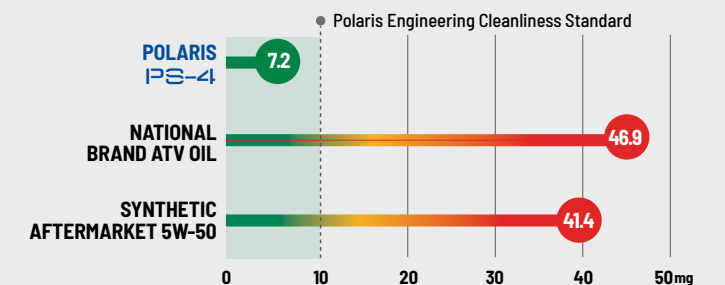

LOWER NUMBER = LESS ENGINE COMPONENT WEAR
LESS WEAR ON PARTS MEANS LONGER ENGINE LIFE

ASTM D4172. In 3rd party testing against 9 competitive products Polaris had 40% or better wear protection compared to all of the tested products. Numbers represent mm of wear scarring measured. Test measures wear at contact points, wear scar is measured for its length and width (in units of mm). Lower wear numbers mean better wear protection and friction reduction.

DEPOSIT TEST

LOWER DEPOSITS = MAXIMUM POWER

ASTM D6335. In 3rd party testing against 9 competitive products Polaris PS-4 had less than half the deposits compared to the next closest product. No other tested products met Polaris Engineering standards for deposit cleanliness. Test measures mass of deposits in mg in high temp, high stress test cycles. Higher deposits will impact engine power and performance.

TIRE SEALANT

24 X 7 COVERAGE | BE PREPARED FOR ANYTHING

HOW IT WORKS

- 1 Tire sealant remains liquefied inside the tire until a leak develops in the tire or wheel.
- 2 Once a leak occurs, the tire sealant rushes out of the tire and quickly creates a permanent solid plug, maintaining tire pressure so you can continue your ride.

HOW MUCH DO YOU NEED?

$$\text{TIRE HEIGHT (IN.)} \times \text{TIRE WIDTH (IN.)} / 5 = \text{OUNCES REQUIRED PER TIRE}$$

VISIT POLARIS.COM/TIRESEALANTCHART TO LEARN MORE

PREMIUM TIRE SEALANT

- Instantly seals and repairs rim, bead leaks and punctures up to .25" on standard tires and .75" on heavy ply tires
- Helps seal the tire bead against the wheel
- Creates permanent repair, helps maintain air pressure for the life of the tire
- 100% water soluble for easy cleanup
- Remains fluid and effective in temperatures down to -45° F
- Will not rust, corrode or pit wheels
- Easily installed through existing tire valve stem with valve core removed

Read, understand and follow your owner's manual. Never operate a generator indoors. Generator exhaust contains carbon monoxide vapors and exposure can result in severe injury or death. Gasoline is highly flammable and explosive under certain conditions. Always use extreme care whenever handling gasoline.
